ORDER APPROVING
DIALING PARITY
IMPLEMENTATION PLAN

TC99-046

On April 21, 1999, Western Telephone Company (Western Telephone) filed with the Public Utilities Commission (Commission) for approval of its dialing parity implementation plan and, pursuant to ARSD 20:10:32:39 and 47 U.S.C. 251(f)(2), a petition for suspension and modification of the requirement for implementing intraLATA dialing parity until September 15, 1999. Western Telephone has fewer than 2% of the nation's subscriber lines installed in the aggregate. "Western Telephone Company seeks the suspension and modification because at this time negotiations are ongoing and no decision has yet been reached regarding whether or not intraLATA equal access will be provided by South Dakota Network as centralized equal access, or, if Western Telephone Company will make the requisite changes to provide intraLATA dialing parity from its end offices. It is technically infeasible and, hence, inconsistent with the public interest, to reach this decision and implement either alternative by July 22, 1999, the deadline according to [the FCC order in CC Docket No. 96-98, Order adopted March 19 and released March 23, 1999,] FCC 99-54." Western Telephone submitted a centralized intraLATA equal access plan.

The Commission requested comments on Western Telephone's petition for suspension and modification. No parties opposed granting the petition and Commission Staff recommended granting the petition.

At its June 15, 1999, meeting, the Commission considered whether to grant the petition. The Commission has jurisdiction over this matter pursuant to SDCL 49-31-80 and 49-31-81, ARSD 20:10:32:39, and the federal Telecommunications Act of 1996, specifically §§ 251 and 252. The Commission voted unanimously to grant the petition for suspension and modification of the requirement for implementing intraLATA dialing parity until September 15, 1999. The Commission found, pursuant to SDCL 49-31-81 and section 251(f)(2), that the suspension and modification is necessary to avoid imposing a requirement that is technically infeasible since Western Telephone needs additional time to decide whether intraLATA equal access will be provided by the South Dakota Network as centralized equal access, or, if Western Telephone will make the necessary changes to provide intraLATA dialing parity from its end offices. The Commission further found that the suspension and modification is consistent with the public interest, convenience, and necessity. In making this determination, the Commission noted that the suspension and modification is for a short time period.

At its June 15, 1999, meeting, the Commission set certain requirements for intraLATA dialing plans. See, In the Matter of the FCC Order Establishing New Deadlines for Implementation of IntraLATA Dialing Parity by Local Exchange Carriers, Order Setting Requirements for Plans, Docket TC99-030. On June 17, 1999, Western Telephone filed an amended intraLATA dialing parity plan. At its June 22, 1999, meeting, the Commission considered whether to approve Western Telephone's amended plan. The Commission voted unanimously to approve Western Telephone's amended intraLATA dialing parity implementation plan. The Commission finds the plan complies with the applicable FCC and Commission orders.

It is therefore

ORDERED, that Western Telephone's amended dialing parity implementation plan is approved.

Dated at Pierre, South Dakota, this 22nd day of June, 1999.
