(3) Should the Interconnection Agreement permit the parties to combine wireless and wireline traffic on interconnection trunks? (4) Should the Interconnection Agreement permit the parties to combine all traffic subject to reciprocal compensation charges and traffic subject to access charges onto the interconnection trunks? (5) What is the appropriate reciprocal compensation rate for the termination of telecommunications traffic? (6) Should Sprint's proposed language regarding Local Number Portability be adopted and incorporated into the Interconnection Agreement? (7) Should the ILEC-proposed Directory Listing provisions, as modified by Sprint, be adopted and incorporated into the Interconnection Agreement? (8) Termination: A) Should the termination provision of the Interconnection Agreement permit the existing Interconnection Agreement to remain in effect while the parties are in the process of negotiating and/or arbitrating a replacement Interconnection Agreement? B) Should the Interconnection Agreement contain provisions that allow the parties to terminate the Agreement for: 1) a material breach; 2) if either party's authority to provide service is revoked or terminated; or, 3) if either party becomes insolvent or files for bankruptcy? (9) What 911 liability terms should be included in the Interconnection Agreement? (10) What Force Majeure terms should be included in the Interconnection Agreement?
