Re: In the Matter of Otter Tail Power Company's Renewable, Recycled, and Conserved Energy Objective Compliance Report to the South Dakota Public Utilities Commission Amended Report

Dear Ms. Van Gerpen:

Enclosed for filing in the above-described matter is an amended report of Otter Tail Power Company to the South Dakota Public Utilities Commission.

In recent correspondence with Brian Rounds, he brought to our attention an error in the additional reporting form we submitted on June 11, 2014. The error was on the Generation Mix Survey tab under the "Natural Gas" column. The correct number should have been 0.30 percent instead of 0.03 percent. Also, in the process of filing this amended report, we discovered that the values in boxes 2 and 3 on the RRCEO Survey tab were reversed. Box 2, which asks for hydro generation, should total 4,560 MWH and Box 3, which asks for renewable or recycled facilities, should total 60,324 MWH.

All of the changes described above have been incorporated in this amended report.

If you have any questions regarding this amended filing, please contact me at 218-739-8883 or cwestergard@otpc.com.

Sincerely,

/s/ CAROL WESTERGARD
