**RE: Fuel and Purchased Power Adjustment – November 2024**

Dear Ms. Van Gerpen:

Montana-Dakota Utilities Co. (Montana-Dakota, Company) herewith respectfully files its fuel and purchased power (F&PP) adjustment to the South Dakota Utilities Commission in accordance of its Rate 58 tariff, as approved in Docket No. EL23-020.

Exhibit A, page 1 summarizes the fuel and purchased power adjustment calculated pursuant to the terms of Rate 58 that will apply during the month of November 2024. Pages 2 through 4 show the calculation of the adjustment which is based on a four-month historical average cost of fuel and purchased power.

The net effect of this F&PP adjustment is a reduction of 0.092 cents per kWh for service rendered in the month of November 2024 from current effective rates as shown below. The per unit decrease was the result of a combination of higher wind generation and a per unit decrease in MISO market prices.

F&PP Effective November 1, 2024	\$0.01309
F&PP Effective October 1, 2024	<u>0.01401</u>
Change	(\$0.00092)

The current and historical Fuel and Purchased Power Adjustment can be found by selecting the Fuel and Purchased Power Adjustment link at <https://www.montana-dakota.com/rates-services/rates-tariffs>.

All of Montana-Dakota's retail electric customers in South Dakota may be affected by this proposal. There were 8,470 customers in South Dakota as of September 30, 2024.
