The entry point of the KXL pipeline into Nebraska is wrong. The soil is extremely susceptible to erosion & highly permeable. I have worked with a soil scientist obtaining soil samples as well as the NCC. I would like the opportunity to present these facts & findings. Ultimately the route in SD affect Nebraska too therefore I feel that I should be involved in the routing process in SD.

Subscribed and sworn to before me this *10th* day of *October*, 2014.
