Subject: [EXT] Docket EL18-003

In the matter of Dakota Range, Docket EL18-003...

I listened to Dakota Range say they did not have a manual and that it would not be printed until November. I say that is not truthful

On May 14th, at the Grant County Planning and Zoning meeting in Milbank, SD, we had a public input hearing. At that hearing, Vince Meyer, a Grant county resident, asked Mark Mauersberger if we were getting used turbines, because he had heard they already had them. Mark Mauersberger replied, no they are not used, we have them from another project.

Who would spend hundreds of thousands of dollars, if not millions, on turbines that have no manual? No one. Their story about not having the manual is fiction.

There may very well be a manual coming out in November. My guess, a 'revised' manual, if anything.

And that 'letter' they produced from Vestas? You have to have reservations on that. That looks like 3 day old fish smells.

To Whom It May Concern (Docket EL18-003, Docket EL18-019):

As a concerned and active community member, I am writing to strongly protest the nearby Dakota Range Wind, the Apex Clean Energy wind project, located in Codington and Grant counties, South Dakota.

I DO NOT support Dakota Range Wind because it is not in alignment with Codington County Ordinance 65 dated 3-27-17 "...adopted to protect and to promote the public health, safety, peace, comfort, convenience, prosperity and general welfare..."

I DO NOT support Dakota Range Wind because it is not in alignment with Grant County Compiled Zoning Ordinance dated 1-25-2018 Section 103 "... adopted for the promotion of the public health, safety, morals, or general welfare..."

I DO NOT support Dakota Range Wind because its developer, Apex Clean Energy, has not used honest business practices in its attempt to achieve its land leases and dissemination of information to the public.
