Dear commissioner's

Last night while attending a community meeting. I learned about the public notice.

I would like you to know the first time I learned of the Dakota Range Project was my neighbors Dan and Teresa Kaaz in March of this year.

I did not receive notice from Grant county for the CUP hearing in June of 2017.

I did not receive a certified letter from Apex informing me of the public hearing in Waverly nor have I ever been approached by a Apex representative.

How many more residents living in the footprint, did not receive proper public notification.
