On January 24, 2018, the South Dakota Public Utilities Commission (Commission) received an Application for a Facility Permit for a wind energy facility (Application) from Dakota Range I, LLC, and Dakota Range II, LLC (together Dakota Range or Applicant). The Applicant proposes to construct a wind energy facility to be located in Grant County and Codington County, South Dakota, known as the Dakota Range Wind Project (Project). The Project would be situated within an approximately 44,500-acre project area ten miles northeast of Watertown, South Dakota (Project Area). The total installed capacity of the Project would not exceed 302.4MW nameplate capacity. The proposed Project includes up to 72 wind turbine generators, access roads to turbines and associated facilities, underground 34.5-kilovolt (kV) electrical collector lines connecting the turbines to the collection substation, underground fiber-optic cable for turbine communications co-located with the collector lines, a 34.5 to 345-kV collection substation, up to five permanent meteorological towers, and an operations and maintenance facility. The Project would interconnect to the high-voltage transmission grid via the Big Stone South to Ellendale 345-kV transmission line which crosses the Project site. The Project is expected to be completed in 2021. Applicant estimates the total construction cost to be \$380 million.

The Commission has jurisdiction over this matter pursuant to SDCL Chapters 1-26 and 49-41B and ARSD Chapter 20:10:22.

Pursuant to SDCL 49-41B-15 and 49-41B-16, **the Commission will hold a public input hearing on the Application on March 21, 2018, at 5:30 p.m., CDT, at Waverly-South Shore School Gymnasium, 319 Mary Place, Waverly, S.D.**
