South Dakota Data Request

2-6 Should the 2015 residential equipment gas program be increased by \$75,000 (in addition to the proposed \$900,000) in order to cover the existing rebate applications for 2014 and meet forecasted demand in 2015?

Response:

MidAmerican does not believe the residential equipment gas program needs to be increased an additional \$75,000 in order to cover the existing rebates applications for 2014. As of March 23, 2015, MidAmerican has received 59 residential furnace applications after December 31, 2014 with pending rebates totaling approximately \$35,400. Any additional 2014 applications furnace applications postmarked after March 31, 2015, will not eligible for a rebate based on our standard program rules as shown below:

**Equipment must be purchased and installed between Jan. 1 – Dec. 31, 2014.
Rebate applications must be postmarked by March 31, 2015, to qualify for
the 2014 rebate program**
