Re: Keystone Pipeline  
Jefferson and Gage Cos., NE Segment  
H.P.#0510-108-01

Dear Mr. Titus:

We concur that the previous archaeological survey (Schwegman et al. 2006) of the Jefferson and Gage Cos. Segment of the Rockies Express route that parallels the Keystone section will satisfy Section 106 requirements. Your undertaking for the above referenced section, in our opinion, will have no effect for archaeological, architectural, or historic properties.

There is, however, always the possibility that previously unsuspected archaeological remains may be uncovered during the process of project construction. We therefore request that this office be notified immediately under such circumstances so that an evaluation of the remains may be made, along with recommendations for future action.

Sincerely,

Handwritten signature of Terry Steinacher in black ink.

Terry Steinacher  
H.P. Archaeologist
