Subject: HP14-001: Please Say No to Keystone XL Auto forwarded by a Rule

Dear South Dakota Public Utilities Commissioners Hanson, Nelson, and Fiegen:

Please reject the Keystone XL Pipeline certification in docket HP14-001.

This pipeline and its construction pose numerous risks to the health, safety, and security of South Dakota's water, land, and people.

The final Environmental Impact Statement submitted by the State Department shows the pipeline is expected to leak at least ten times over the course of its lifetime.

We must not sacrifice and risk the Missouri River, the Ogallala Aquifer, our rural water systems, and our livelihoods for dirty tarsands oil.

Moreover the construction of the pipeline puts rural communities at risk with the drastic influx of people, equipment, and traffic.

Please say no to Keystone XL.

Sincerely,

Norma C. Wilson
