### Contact Summary:

Talked with Mike and Sue and waited around while the weed control was being done on their property. Sue asked if they was getting compensated for the water use the repair crew is using to spray other tracts not owned by them. I told them that the repair crew will pay that.

### **Contact Summary:**

Eric and I went to meet with Mr. & Mrs. Sibson. They called last week complaining about the air plane spooking the calves they have. They stated the plane flew over on the west side of the ROW near there home and cattle pens. They wanted the name and number for the company that does the flights. We was informed by Josh that he is correct person to contact and we informed the Sibson's. They stated that the fly over had been very good about this until the other day. They also stated if they don't do as was promised about flying on the east side they will take this matter up with there attorney. We told them we would inform the proper personnel about this.

### **Contact Summary:**

Mr. Sibson called this morning and we had a very good conversation. I told him that Eric and myself will be seeing him and his wife next week and we would let him know what day. He said any day would be good except for Thursday. He explained the layout of his property and it made it clearer to me what the issue is. I told him I called yesterday only to assure them that we are on top of the issue. He said he would like to get the number of the company doing the flyovers. I told him we are trying but we could not guarantee that we would get the information.

### **Contact Summary:**

Received a copy of a email Eric sent to Josh Thompson. It stated the Sibsons called Eric and had a complaint about the flyover. I left the Sibsons a message with my name and phone numbers and informing them we are looking into the issue. I also introduced myself and left them both my phone numbers and told them I look forward to meeting with them. I also asked for them to call me if they would like to.
