Subject: RE: Supplemental Information

John,

The department has reviewed the additional information you submitted concerning South Dakota specific emergency response issues and has the following questions / requests. If possible, please incorporate your responses into a finalized version of the document you sent via the 12/21/09 email below. Thanks again for your efforts to prepare this South Dakota specific response document.

Page 2. #4 Initial Response Actions

- 1) Please include additional information about what "4 Hour response time to **secure** the site" means. The department would like a more specific definition of what "secure" means. For example, does a TransCanada employee or contractor need to be present for the site to be secure? Does secure mean the leak will be stopped and contained? Will cleanup efforts be underway?
- 2) The narrative states, "the first person on site shall...". Does the list provided apply to the first TransCanada employee or contractor on site or any first responder (i.e. local police or fire)?
- 3) Please include a more specific description of the anticipated role of the local first responder. The reason for this request is, based on past department experience, it is likely the local first responder will take action (i.e. deploy boom, constructing berms to control product flow, etc..) prior to the arrival of the first TransCanada employee or representative. Because of this, the department would like to know what TransCanada expects from the local first responders.

Page 4. Internal Notification Flow Chart

- 1) Please prepare and include as South Dakota specific external notification flowchart. To help in this process the attached .pdf file contains the South Dakota release notification requirements.

Sincerely,

=====

Subject: Supplemental Information

Brian, in addition to the material sent to you and your follow-up email, I have prepared a *DRAFT* document that hopefully addresses your questions.

Please contact me if you have any additional questions or comments and we can discuss.

Keystone is committed to excellence in all aspects of our Emergency Response Program and we are pleased work with your agency going forward.

Thank you and enjoy the Holiday Season.

John W Hayes
