

**Kevin Schlosser, Emergency Management Coordinator, Avera McKenna  
(Assists Avera St. Mary's in Pierre, SD)**

**Quotes/thoughts from Kevin per phone visit and email on 04-01-15 and 04-02-15  
Permission granted by Kevin to use this information in my testimony.**

- **“What are we dealing with? Give me an SDS, to know the chemicals involved.”**
- **“Time-frame, how fast is it moving, when will it reach water intakes”**
- **“Would want to know how to slow it down, contain it. I would like to ask industry experts how soon will it reach us. I have not seen any of that.”**
- **“If they would provide SDS, it would be kept in the Emergency Department to have readily available.**
- **“Have not been given any information specific to tar sands oil product.”**
- **“I would rely on the County Emergency Manager, the Sheriff's Dept., and also would rely on a SDS for treatments.”**
- **Not aware of training to instruct health facilities how to respond to tar sands emergencies/disasters.**
- **For decontamination, would rely on the Safety Data Sheet for review and instructions.**
- **“I've checked w/ the person that does Emergency Preparedness for Avera St. Mary's and they have not seen SDS to this point” (email message on 04-02-15)**
