7. Consultations.....	5
8. Other information.....	5

## **1. Liaison Activity**

The Liaison had 4 contacts by phone calls and emails in the 3<sup>rd</sup> quarter of 2020.

The categories of contacts are as follows:

Crop Monitor Program and Maintenance digs.  
Maintenance debris left behind.

All issues known to the Liaison have been resolved to date.

## **2. Status of Land Acquisition**

Dakota Access has indicated they have executed easements on all of the private property it plans to cross in South Dakota.

### **3. Status of Construction**

Construction has been completed on all 3 spreads in South Dakota:

Spread 4: 100 % Grading  
100 % Ditching  
100 % Lowering-In/Backfill  
100 % Topsoil Replaced  
100 % Seeding

Spread 5: 100 % Grading  
100 % Ditching  
100 % Lowering-In/Backfill  
100 % Topsoil Replaced  
100 % Seeding

Spread 6: 100 % Grading  
100 % Ditching  
100 % Lowering-In/Backfill  
100 % Topsoil Replaced  
100 % Seeding

### **4. Status of Permits**

100% of Right to Occupy and temporary & permanent approach permits have been acquired. All haul road agreements have been reached. Army Corps of Engineers has issued necessary permits. Water uptake and discharge permits have been acquired for hydrostatic testing. DAPL has with US Fish and Wildlife to have mutual understanding on relevant issues.

USFW has been allowed to inspect all USFW easement areas after final reclamation.

**5. Physical Completion**

The Mainline in all spreads are mechanically complete.

**6. Major Design Changes**

There have been no major re-routes or design changes.

**7. Consultations**

Dakota Access has been consulted with DENR on reclamation issues.

**8. Other information**

Additional Pumpstation construction is scheduled to begin in the spring of 2021.
