Re: Dakota Access Pipeline

March 24th, 2015

Dear Commissioners,

As a decade long resident of Mitchell, SD I felt compelled to write this letter of support for the proposed Dakota Access project. As someone with many friends and colleagues in the proposed route, I feel it would create a huge boost to the South Dakota economy and be great for tax revenue.

My husband works in the commercial pump industry. His company is locally owned and operated in Southeast South Dakota. Business isn't always booming, with a project of this footprint his company along with other companies in the state would most definitely see an increase in business.

I understand how congested the railways and roadways are these days with crude oil shipments and fear we are one more derailment or collision away from another disaster. Oil pipelines have consistent history being one of the safest ways to transport crude oil among other products that travel through these lines.

Thank you for your time and consideration,

Linda Dorzok
