Subject: Dakota Access Pipeline docket # HP14-002
Auto forwarded by a Rule

As landowners in the path of the proposed Dakota Access Pipeline, we have been getting numerous phone calls from the Texas based company urging us to sign the easement to allow them to use our land for their pipeline. They tell us that 80% of SD landowners have granted their permission, so the PUC ruling in favor of this is a foregone conclusion. If so, why has the ruling not been publicly announced? Also, if the State of Iowa has not given their permission, how is the proposed route even possible? As people wishing to be good stewards of the land we are so fortunate to have, we would urge you to deny permission for this. From our research into the matter, we feel the disadvantages outweigh the advantages both to us personally and to our state. Please consider future generations as well as the present one. Respectfully yours, Robert and Jean O'Kane [REDACTED] Hartford, SD 57033 [REDACTED] [REDACTED] docket#HP14-002
