## FLOODPLAIN ADMISTRATOR PERMIT AND REVIEW CHECKLIST

To be completed by local floodplain administrator

Applicants name	Michels  Experime Date of Application: 2-25-110
Project Location Name o Legal de Market	rescription of property:  water at the location: Old Water 5 in Spink Constraints of property:  walue of building that is being improved (if applicable) \$
The proposed d	evelopment is in Floodway or Floodway Fringe.  Residential or non-residential other (if shore-line stabilization go to
1/ 2/ 34	CHECKLIST FOR APPLICATION-RESIDENTIAL DWELLLING  Plans drawn to scale in duplicate (including dimensions) showing nature, location, and elevation of the lot with in present form. Pictures of the site are sufficient.  Plans drawn to scale in duplicate (including dimensions) showing nature, location, and elevation of proposed construction plans and improvements. This is to include elevation levels. Map must show adjacent flood hazards.  Elevation (in relation to mean sea level), of the lowest floor (including basement) of all new and substantially improved structures.  Description of the extent to which any watercourse or natural drainage will be altered or relocated as a result of proposed development.
1	CHECKLIST FOR APPLICATION-NON-RESIDENTIAL BUILDING  Plans drawn to scale in duplicate (including dimensions) showing nature, location, and elevation of the lot with in present form. Pictures of the site are sufficient. Physical observation of site will also be sufficient. Pictures may still be required even if the area is observed by floodplain manager.  Description of building plans. How high will foundation be and materials that will be utilized?
PART Ć  1 2	OTHER WORK IN THE FLOODPLAIN  Levies. Date being built, date the levy will be removed See IVVo page  Description of work being done in the floodplain
PART D	DETERMINING BASE FLOOD ELEVATION (BFE)

1. (1)	BFE figured using FEMA floodplain tables by engineer, floodplain manager,
2. NA	known information.  BFE figured by Best Data Available (BDA) How was that data obtained
<u>PART E</u>	REVIEW OF APPLICATION  According to floodplain regulations, several criteria must be considered in deciding
	whether or not a permit is issued. The proposed building or earth works must
	address the following concerns in order to obtain a permit to build in a
	floodplain from the Spink County Flood Plain Administrator.
<u>1</u> a.	Proposed project meets minimum floodplain development criteria as outlined in the
	Floodplain Management Ordinance.
<u> </u>	The proposed building does not increase the flood heights, increase flood water velocities, or alters the pattern or flow of flood waters.
<u>\</u> c.	Water supply and sanitation systems, if any, and the ability of these systems to prevent disease, contamination and unsanitary conditions.
<u>√</u> d.	The susceptibility of the proposed facility and its contents to flood damage and the
1/	effects of such damage on the individual.
1_e.	The likelihood that the structure of building will be threatened due to its proximity to a stream or the lateral movement of the stream.
1/1	The availability of alternative location not subject to flooding for the proposed use.
∑g.	The safety of access of the property in times of flooding for ordinary and emergency
Jet C	services. (This can be mitigated by presenting an emergency evacuation plan to the
. /	County Emergency Management Office on a yearly basis.)
<u> </u>	Effect of the project on adjacent properties. (If an issue is noted by the Floodplain
	Administer you will be required to get written approval from neighboring properties to continue.)
0 -	Neighbor(s) written approval received. (If applicable)
11 <u>0</u> 1.	Property was physically visited and viewed by Floodplain Administrator.
(1/2)	Will this project require a "No Rise" certificate?
MOK.	Will this project require an "Elevation" certificate?
DOM.	Will this project require a "No Adverse Impact" certificate? Will this project require a "Hydrology and Hydraulics" certificate?
()/On.	Will this project require more than one elevation taken? If yes, record in note section of
1———.	the permit elevations to be required.
Once the appli	cation has been reviewed and the above criteria have been considered, the application
should be eithe	er approved or denied within 60 days of receipt of the completed application.
IF PERMIT IS D	
	etter of explanation has been provided to the applicant stating reasons for denial.  pplicant has been notified of the following options:
	Proposed development may be redesigned to meet required floodplain standards
	Applicant may appeal the administrator's decision to the local governing body.

nament a contama to the continues
request a variance to the ordinance.
IF THE PERMIT IS ISSUED:
1. Permit is issued with list of conditions included or attached.
2. AF For residential/commercial structures a completed Evaluation Certificate (FEMA form #81-31)
has been received.
3) The completed project has been inspected for compliance by the Floodplain Manager
Date
4. A complete set of documents pertaining to this development will be attached to the building
permit and kept on file.
SIGNED BY Journ Leller DATE 2-25-10
Conditions (if any) for approval. Restoration of all earth-work done in the flood plain upon completion
of the pipeline project.
AND
This permit covers all flood plain requirements for all of Spink County until completion of the pipeline
project.
For share line stabilization. This permit is only valid for work no more than any
