Subject: [EXT] HP22-001 Proposed 2023 Evidentiary Hearing

Dear PUC Staff:

Please see my revised statement.

I would like to reserve one hour to present evidence at the proposed 2023 evidentiary hearing under Docket HP22-001. The nature of the evidence that I will present is related to a property interest held by DEH III, LLC (DEH) in the NW1/4 NW1/4, 23-99-50 - i.e. an easement for agricultural drainage facilities. The proposed route of the Summit Carbon Solutions (SCS) hazardous pipeline appears to cross these drainage facilities and easement. I want the record to reflect that DEH has the aforementioned interest in property and that any proposed permit for the SCS hazardous pipeline will assure DEH's continued right to quiet enjoyment of its property interest (easement) in the NW 1/4 NW 14, 23-99-50.

Thank you,

DEH III, LLC

William G. Haugen, Jr

Manager
