RE: Docket # (HP22-001)

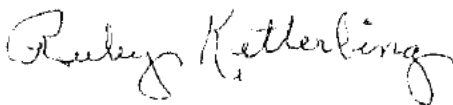

To Whom it May Concern:

I am writing this to express strong opposition to the Summit CO2 pipeline project in South Dakota. My husband and I have lived in, owned and paid taxes on land in McPherson County, South Dakota since the early 1950s. My husband is now deceased and my desire is to carry on the good stewardship of the land that we had practiced all of these years. Being a good steward of the land to me does not mean allowing a hazardous CO2 pipeline to cross my family's or any other land in the great state of South Dakota. I am greatly concerned about the health risks that this hazardous material can have on humans, animals, and surrounding land.

I was shocked after receiving a call from Summit and being told that they were sending surveyors on my land the next week without even asking permission! Whatever happened to common courtesy? I did tell them I wanted no surveyors on my land.

Please vote no and do not allow eminent domain on this project.

Respectfully submitted,

Ruby Ketterling
