petitions the Public Utilities Commission to be granted party status in the above-referenced facility permit proceeding.

Briefly explain your interest in this permit proceeding. Form is limited to 1000 characters.
(Example: Landowner in project area).

The proposed carbon pipeline, under the original proposed route, affected my primary household/farm. Under the second proposed route, my primary residence/farm is just over a half mile from where it will run. However, the new route affects property I have under contract-for-deed from my parents. It serves as my secondary location for equipment, cattle and farm ground.
