

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA**

**In the Matter of the Application by SCS
Carbon Transport, LLC for a Permit to
Construct a Carbon Dioxide Transmission
Pipeline**

**APPLICATION FOR
PARTY STATUS**

HP22-001

Zetterlund and Sons Inc.

(Name of Applicant, this will be the person or entity named as a party)

petitions the Public Utilities Commission to be granted party status in the above-referenced facility permit proceeding.
Pursuant to SDCL 49-41B-17 and ARSD 20:10:22:40

Briefly explain your interest in this permit proceeding. Form is limited to 1000 characters.
(Example: Landowner in project area).

my family and I are close landowners in the project area. Having experienced the construction of the Northern Border Pipeline directly across our land, we were well aware of the consequences of having a large construction area on our farm and any effects of the project on nearby properties. If the pipeline route does not change again, we are extremely close to it and therefore we know it leaves us no alternative for complaint or recourse in the events resulting from its construction. For this reason we are opposed to the P.U.C. granting Summit Carbon Solutions a permit for this pipeline since the privately owned company has not adequately answered our concerns about their reasons for building it.
