Subject: [EXT] SCS Carbon Transport Pipeline

My name is Craig Basler, [REDACTED], Wentworth, SD 57075. Our acreage and farmland is within one-half mile of the proposed route. I do not understand how this can be a viable business plan. Where is SCS revenue coming from? Please establish setbacks from homes and acreages. Suggest running the pipeline in open farm land as much as possible (in the middle of sections of land on the half mile line). Please have some kind of an odor added to the CO2 so a leak can be detected by smell for the public and first responders (like propane). Safety must be the first priority. Thank you, Craig and Lisa Basler.
