Objection to HP22-001

Attn: Commission Chairman Chris Nelson, Commissioner Kristie Fiegen, Commissioner Gary Hanson

I am writing to express my opposition to the Summit Carbon Solutions CO2 pipeline project in South Dakota and any hazardous material pipelines providing South Dakotans little to no benefit at the risk of health, safety, and land. I also object to the bullying tactics these companies use to harass landowners into agreeing to surveys and threatening to take the land through eminent domain.

I am gravely concerned about the safety of my family, friends, and neighbors. I am also concerned about the disruptions to the land that these pipelines would pass through.

Using eminent domain for private company gains when CO2 is neither "public" nor a "utility is a violation of landowners rights and freedoms.

Please vote "NO" and do not allow eminent domain.

Dustin Berg
