Subject: [EXT] A voice for Protecting Property Rights

Press release or letter to the editor: (A voice for Protecting Property Rights)

PUC, Landowners and Constituents,

I am respectfully requesting that the SD PUC reject Summit Carbon's application. Please do not allow this application to move forward in September.

If built as Carbon Solutions intends, its pipeline will come within 750' or less of my constituents, they do not want this pipeline, which brings with it the potential for loss of life in the event it leaks or ruptures.

CO2 pipelines differ from oil and gas and, according to the Pipeline Safety Trust, are more prone to rupture. We also do not want carbon sequestration, which is not well-regulated in South Dakota CO2 pipelines have never been constructed at the lengths proposed, and raise grave concerns because they are under-regulated and pose numerous safety hazards and land use concerns.

Laying this pipe at 4' when the frost line is near 6' just seems to be problematic. I am for Property Rights, I join the request 'No Eminent Domain for Private Gain.' Please protect Brown County and all South Dakota residents.

Call me if you have questions!

Cell

Landowners and Constituents, Please distribute as you feel appropriate. Doing nothing is not an option!

Among the natural rights
of the colonists are these:
First a right to **life**, secondly to **liberty**,
and thirdly to **property**; together
with the **right to defend them**
in the best manner they can.

— Samuel Adams
