Subject: [EXT] Navigator decision

Commission:

Please allow me to take a moment of your time to praise you for your decision on the Navigator pipeline. Living on the west side of the state, I did/do not have a dog in this pipeline fight, but feel it was an opportunity for a precedent to be set.

I feel you made the right and only decision regarding Navigators pipeline and hope you will do the same with Summit. These are private for profit entities. I feel eminent domain should never be used for profit; feel these companies tried to bully landowners, feel they out and out lied to landowners, and never once do I feel they negotiated in good faith with anyone. "Good faith".... a standard of people with integrity.

Again, thank you for your decision. I look forward to seeing the same decision for Summit when it's their turn.

Respectfully,

Connie Snow
