Subject: [EXT] Summit Carbon Solutions

Hello,

I am reaching out with the understanding you will be reviewing Summit Carbon Solutions request to be treated as a Public Utility.

As you are aware, Summit Carbon Solutions is a private company that wishes to utilize eminent domain to force private landowners to allow pipelines to be run across their land. There is evidence that landowners have been treated poorly in this process. Some have been bullied.

Please utilize your wisdom in making this decision. Oil, Natural Gas and Water are commodities used by the residents of South Dakota. Carbon Sequestering for profit may serve a few individuals yet not the Public at large.

Thank you for your time and consideration of this concern!

Daniel Lawrence
