Re: Spink County Application For Party Status
Carbon Dioxide Transmission Pipeline

Dear PUC Commissioners:

Enclosed herein, please find Spink County's application for party status regarding the application by SCS Carbon Transport LLC for a permit to construct a carbon dioxide transmission pipeline. A significant portion of this pipeline is proposed to be constructed in Spink County and will impact numerous landowners and residents.

I would also set forth that this office and the Spink County Sheriff's Office has received numerous complaints of trespassing by survey crews hired by Carbon Transport LLC. These complaints have been received from throughout Spink County.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Victor B. Fischbach
Spink County State's Attorney
