Subject: [EXT] HP22-001 & HP22-002 - Eminent Domain

Please do not allow a private company to take ranch/farm land thru eminent domain. Our ranchers and farmers are the best at conservation and have been for generations. Let's stand by our constitution and keep our agriculture from losing precious farm/ranch land.

To whom it may concern.

These are trying times in which we live. The people of SD are having their property rights violated by a private for profit company without proper documentation. This company is not complying with the law by giving landowners the 30 days required to survey. They are threatening landowners, bring armed guards with them, enter private homes and out buildings without permission and lying about nonexistent threats of death or harm. It is at this time that I urge the PUC to deny any and all permit applications from Summit. They are not good for SD or SD people. They are a threat to our rights, freedoms and liberty as defined in both the State and US Constitutions as well as SD law.
