PUC Docket #(HP22-001) (Summit Carbon Solutions LLC, Petition for a Hazardous Liquid Pipeline Permit)
Hazardous Liquid Pipeline Permit Docket

Dear Commissioners,

With all the hype about the importance of sustainability in the environment, it is hypocritical that this pipeline cannot run without tax money which is in the form of carbon tax credits. Unlike other businesses which can run by themselves, this project is cannot run without taxpayer money being pumped into it. It is not sustainable. And where does the tax money come from??? You and me.

In addition, the pipeline carrying hazardous material at high pressure that's corrosive is a safety concern for humans and our livestock.

Please oppose Summit's permits and eminent domain.
