Subject: Fwd: [EXT] Pipeline

FYI. This is a route issue and an eminent domain issue. They need to not go through that new housing project or they won't like the legislation they'll see next year. Please free to share with whoever can resolve the conflict. Lee

Subject: Pipeline

Jim

A group of us in watertown just got advised that your proposed pipeline goes right through the middle of the community's large new development at Harmony Hill.

You need to talk to the pipeline people. That route is a nonstarter that you don't want to be in the middle of. Let me know what you're going to do about it. Lee
