Reference: HP-22-001 Commision Docket for SCS Carbon Pipeline

Dear Commissions of the South Dakota Public Utilities Commission:

I am a member of Landowners for Eminent Domain Reform.

Please Schedule the Summit PUC permit hearings at later dates and I please request them to be made of later dates of September 2023 or January 2024 --

-Farmers in the springtime planting time do not get much sleep and are extremely fatigued, Machinery has breakdowns and long driving hours to get parts.

- Corn planting is critical to get done- on time and in between rains.

And the time it takes to prepare records for the hearings is not enough.

Thank you,

Walter Theis -- Farm in Valley Springs SD
