Greetings,

We are writing to express our opinion on the Summit Carbon Pipeline permit being considered by your commission.

Capturing, pressurizing, and moving Carbon across inhabited land has many risks and dangers to the citizens of South Dakota. The County ordinances where the pipeline is routed should be complied with and all landowners must have the right to say no for their property.

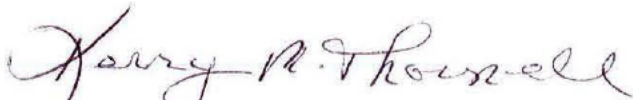

We encourage you to deny the request for permit by Summit Carbon Systems. Please considerately rule for the citizens of South Dakota, the landowners, and certainly for the safety and health of all South Dakota citizens.

Respectfully,

Joseph E. Thornell Sr.

South Dakota Landowner and Resident
