Subject: [EXT] Summit Carbon Solutions CO2 Permit - Docket HP22-001

Docket # HP22-001

Steve Vetter
Vetter Farms LLC
[REDACTED]
Turtle Lake, ND 58575
[REDACTED]

I am going on record that I am for a postponing and opposition of the Summit Carbon Solutions CO2 permit application in South Dakota. This permit should be moved from April 8th to into May or longer to have more time for details and dialogue. What are the short term and long term effect on this farmland and dangers involved?

I have not been notified on any final plan on where the proposed pipeline will be at. Will it be put on my land or running near my land? (Sully County) No details on compensation have been presented for loss of crops or decreased value of the land.

This is private land....not public property. Is there a vote by the people/property involved or just more government control?

Thanks for reading this and responding,

Steve Vetter – manager of Vetter Farms LLC
