RE: HP22-001

Dear Mr. Koenecke:

Following an initial review of the application in this docket, I would request two additional documents be prepared and submitted to the docket at least a week prior to the beginning of the public input meetings.

Appendix 9 of the application contains 517 aerial maps. Each map sheet contains a small vicinity map. It is nearly impossible to determine where each map page is located in the state based on that small vicinity map. In past dockets, map series such as this are preceded by a master vicinity map which shows the location of all the map pages on a single large map page. I would request that document be prepared and submitted.

Likewise, the same appendix contains 128 pages of topographical maps which suffer from the same deficiency. A master vicinity map would be most helpful.

Thank you for your attention to this request.

Sincerely,

Chris Nelson
