

8/29/2023

Dear Mr. Hansen, Nelson and Tegen
I am writing about concerns about
the Navigator carbon sequestration pipe-
line going through S.D., in our case
through Moody County. I am sending
a map showing carbon line route.
I have thirteen tile lines in approx.
500' which will have to be repaired.
We have invested thousands of dollars
in tile lines. I worry about these
repairs, depreciation of some of the
best land in S.D. for all of us in
raising feed and food. Who really
benefits from this line? We as tax
payers are involved in so many draws
on our monies. Maui, West Coast,
Florida now, homeless, immigration,
roads, schools, prisons and Ukraine,
just to name a few. We are 32.6
trillion in debt. and this line backed
by power and millionaires wants to

Ciao!

dictated to their benefit our tax dollars.
Our money!

These properties are like family. My
last pass with our tractor upon re-
tirement was very emotional as was
I am sure with previous owners.
We want to be good stewards of these
properties and watching these rights
of ways fall into others hands for-
ever is thought on our minds every
day.

Please keep us property owners in mind
on your decisions on voting on Carbon
lines.

Thank you,
Richard & Cindy Jorgensen

I hope you get this.

This exhibit is a mapping sketch descriptive only of the size, shape and location of corridor and does not constitute a plat or survey of the tract shown. For informational purposes only.

SUMMARY

PROPOSED LENGTH

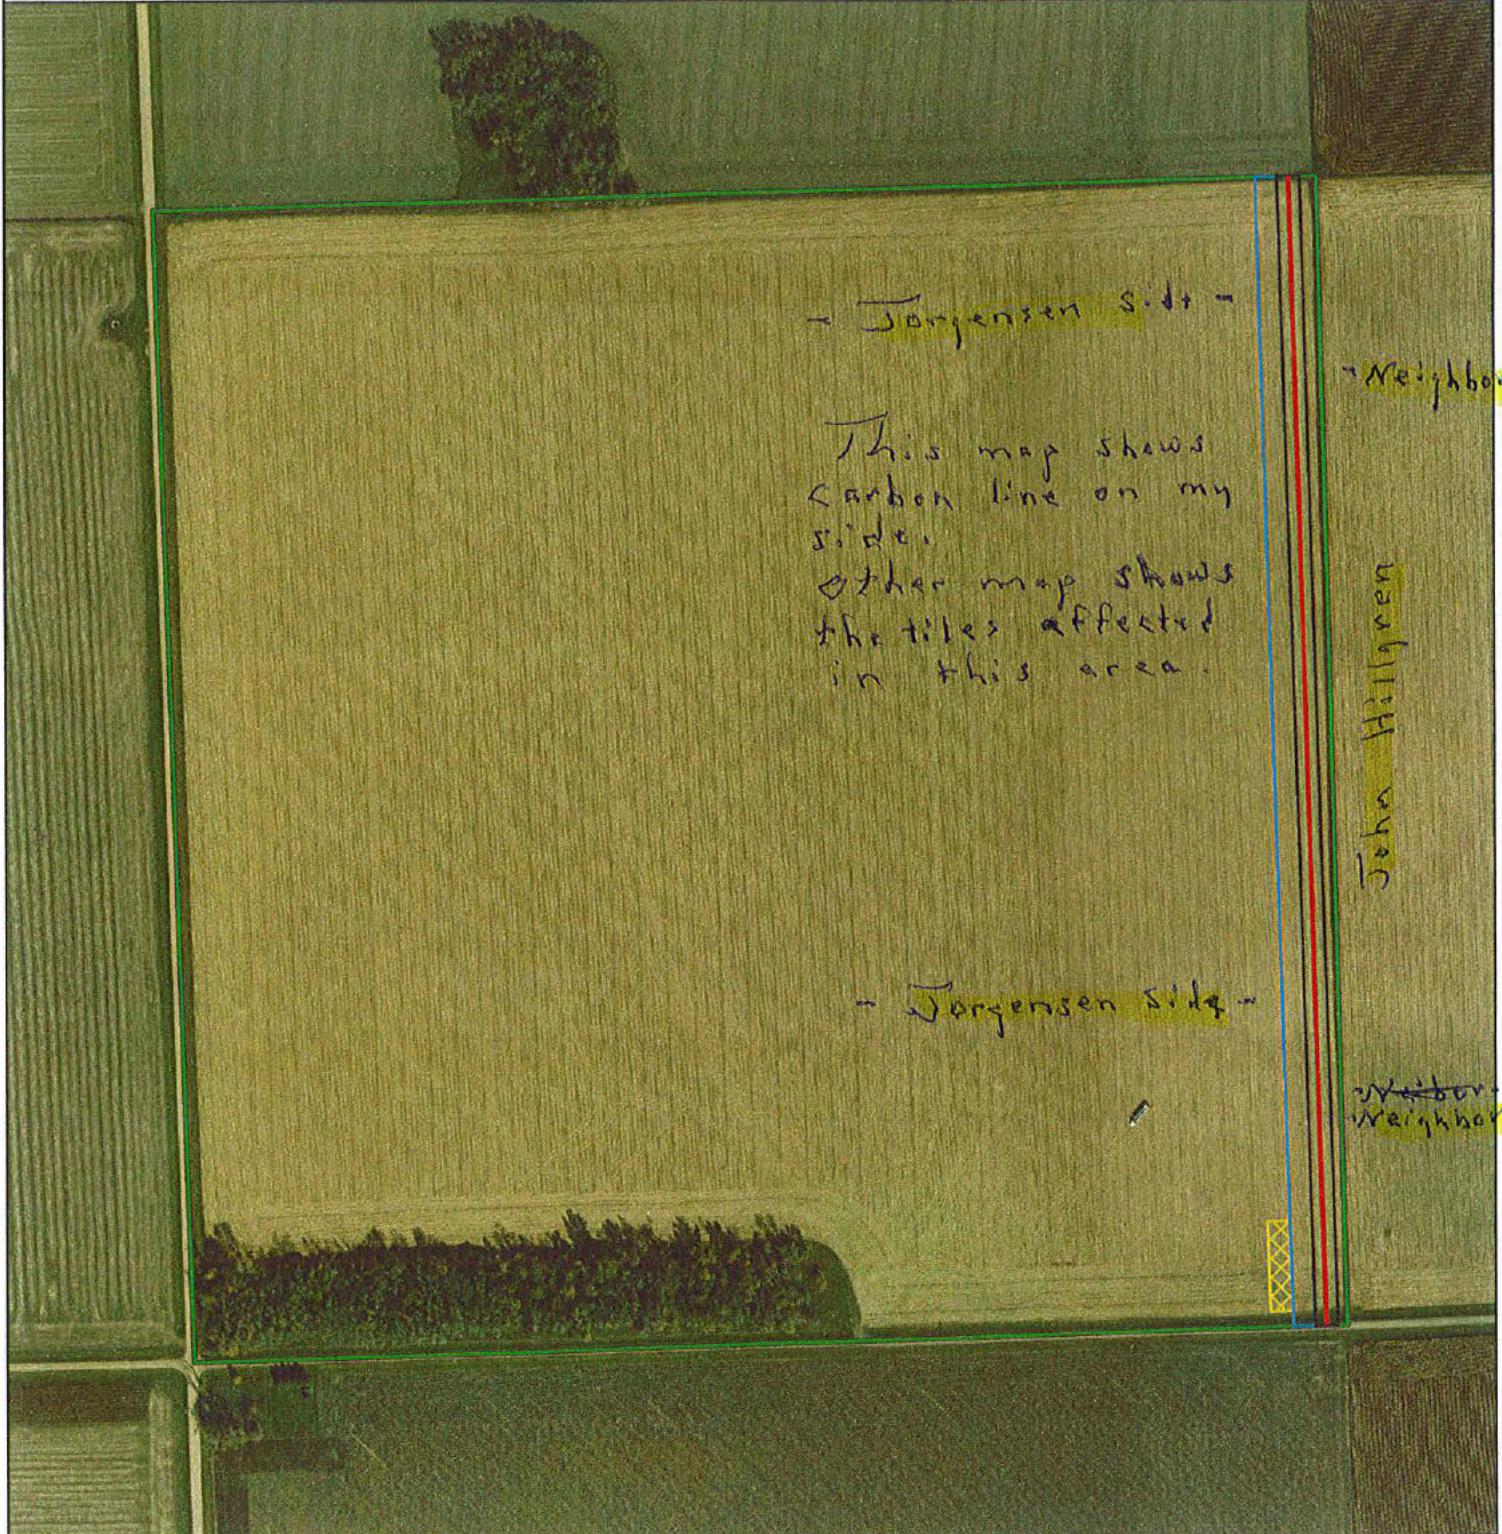

2,584.69 Feet
156.65 Rods

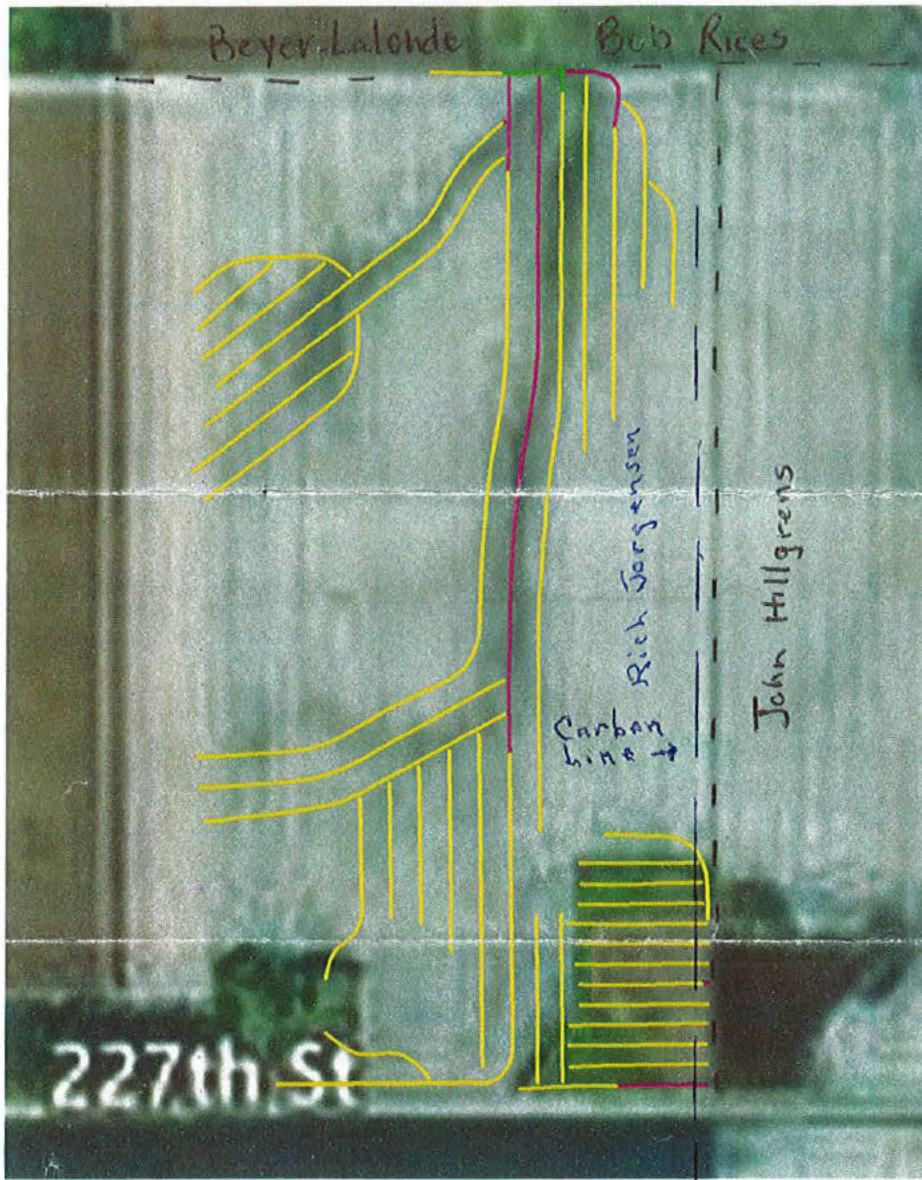

PROPOSED ACREAGE

2.97 Permanent Easement Acres
2.97 Temp Workspace Acres
0.23 ATWS Acres

LEGEND

-  Easement Centerline
-  Permanent Easement
-  TWS
-  ATWS
-  Tracts

Moody County
Clare Township

The carbon line goes up the half mile on my side of fence through all 18 tiles. Navigator had original line on neighbor side (John Hill). He said no so they put line on my side??

* overall map

I was at a meeting in Hlandreau with PUC and you wanted or encouraged we land owners to send our areas affected by line.
