Subject: [EXT] Thank you for protecting SD Land

Good evening Commissioners,

Good show, PUC... and congratulations to the landowners and South Dakota. This project and others like it have short-term non-solutions written all over them. THANK YOU for planning ahead and putting foot on the brakes as there's a better way to store and/or minimize carbon dioxide. And, this comes from a farm girl who supports value-added ag.

I deeply appreciate the work and thoughtfulness you have put into making your decision.

Take care,

Pam Cole
