Any coverage for certain commercial lines of property and casualty insurance provided by your policy for losses caused by certified acts of terrorism are partially paid by the federal government under a formula established by federal law. Under this formula, the government will reimburse us for 85% of such covered losses that exceed the statutory deductible paid by us. However, beginning January 1, 2016 the share will decrease 1% per calendar year until it equals 80%. **You should also know that in the event aggregate insured losses exceed \$100 billion during any year the Act is in effect, then the federal government and participating United States insurers that have met their insurer deductible shall not be liable for the payment of any portion of that amount of the loss that exceeds \$100 billion. In the event that aggregate insured losses exceed \$100 billion annually, no additional claims will be paid by the federal government or insurers.** This formula is currently effective through December 31, 2020 unless extended.

The premium charge, if any, for this coverage is shown separately on the attached Declarations page. In the event of a certified act of terrorism, future policies also may include a government assessed terrorism loss risk-spreading premium in accordance with the provisions of the Act.
