

Summit has proven it cannot follow
setbacks AND it's lack of ~~PRO~~ Transparency
during the last several years proves its
unreliability AND is NOT a company, I
want to have to work with. I hope the
Commission chooses to support the landowners
and residents of South Dakota, who spoke
loudly + clearly in the defeat of RL-21, and
NOT permit a for profit, DANGEROUS, inexperienced
pipeline company to ~~cross~~ cross the STATE.

Respectfully,
