Explain your interest in applying for party status below.

First and foremost I am very concerned with the safety of this pipeline. This company has never built one and there has never been one built to this magnitude. They have proven over and over again that they cannot be trusted. Reading the contract they wanted me to sign it gives little rights to me and everything to them. It will cross up to thirty tile lines on my farmland. In the wording they claim they will fix them if they deem they are responsible. Nothing said about crop damage because of wet ground while it is not working. Along with my ground it goes through several parcels that I rent. The compensation for crop damage should go to the tenant, but in asking around of past pipelines the farmers I have talked to have never been compensated for damage. In this competitive environment for land it puts extreme strain on tenant landlord relationships. This whole process has also put extreme strain on neighbor relationships.
