Comments: I do NOT want this dangerous Pipeline near any residential areas, or animal refuge facility.  
the new route from the south is less than a mile from our home and the northern route is less than 2  
miles from our home on the west side of Aberdeen. there are many others, as well as the Humane  
Society and an Aspire congregate home that are much closer yet! Also there is no purpose for carbon  
capturing. our plants, trees and crops need the CO2 and we all need the oxygen the plants and trees  
produce.
