In the Matter of the Application by SCS Carbon Transport LLC for a Permit to Construct a Carbon Dioxide Transmission Pipeline

APPLICATION FOR PARTY STATUS HP24-001

Roy Wieseler, petitions the Public Utilities Commission to be granted party status in this proceeding. (Name of Applicant. This will be the person or entity named as a party.)

X I am a person or organization that received official notification of the project via U.S. mail from the siting permit applicant.

X I reside within .5 miles of the proposed project.

Residential address if different from your mailing address: 17770 356th Ave, Orient SD 57467

X I own land within 0 miles of the proposed project.

Legal description: Hand County Sec/Twp/Rng N1/2 NE1/4 36-116-69 & NW1/4 31-116-68

I officially represent a municipal, city, township, county or other affected governmental agency within miles of the proposed project.

Explain your interest in applying for party status below.

As a resident/landowner and taxpayer of Hand county, I am concerned about the lack of transparency about this project and how Summit has treated our community. I do not believe Summit is fit to be awarded a route across our state and their application should be denied. The fact Summit is ignoring and disrespecting our counties who have exercised their rights to pass ordinances for the good of the community and welfare of the citizens by asking the PUC for preemption is outrageous. I do not believe Summit will comply with all rules and laws. I believe Summit poses a threat of serious injury to the environment and to the social condition of people in the proposed pipeline area. I believe Summit poses a threat of serious injury to the economic condition of people in the proposed siting area. I believe Summit will substantially impair the health, safety, and welfare of people in the proposed siting area. I believe Summit's hazardous pipeline would unduly interfere with orderly economic development of the areas it is proposed to be located. I believe the majority of governing bodies in the potentially affected areas do not have a favorable view of Summit or their proposed pipeline.
