Subject: [EXT] Existing Docket Filing

Docket Number: HP24-001 Last Name: Webb First Name: Sherri Company: landowner Address: 1984 Sawyer Trail City: Woodbine State: IA Zip: 51579 Phone: 712-592-1488 Email: sherriannie@hotmail.com Comments: Please consider how your decision will affect hundreds of landowners, as well as the generations of so many families, and thousands of acres of land.

If you are unable to see the entire section, please note below.

Explain your interest:

The proposed hazardous waste supercritical CO2 pipeline that will run through our highly erodible land (HEL) will cut two Soil and Water Conservation terraces and cause unforgivable erosion after decades of no-till practices. Our family has owned this land for over 125 years and has an intense interest in this project since it will cause a direct economic hit. Summit CANNOT restore no-till land and has no interest in Iowa farmland. Their sole goal in this project is billions of dollars that will benefit them - a private company and private gain at our expense. Under SDCL §1-26-27.1, a person whose pecuniary interest would be directly and immediately affected by an agency's order may become a party to the hearing. Our family's land will be adversely affected by an approved permit from the South Dakota PUC since the Iowa IUC granted eminent domain with the approved permit to Summit Carbon. The sixth and seventh generation are waiting in the wings to inherit the land, but we may not be able to pass this precious land on to our family due to the fact that we will no longer be covered by liability insurance, and they could be sued into bankruptcy. The fact that our family's legacy may end because of this project is truly heart-breaking and is a direct conflict of what our Iowa family farmers' work represents.
