

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF SOUTH DAKOTA

This form is only for persons who wish to be an active party in this docket. You do NOT need to be a party to submit comments.

In the Matter of the Application by SCS Carbon Transport LLC for a Permit to Construct a Carbon Dioxide Transmission Pipeline

APPLICATION FOR PARTY STATUS

HP24-001

Tim and Valori Basler, petitions the Public Utilities Commission to be granted party status in this proceeding.

Place a check mark next to each item below that applies to you, adding a mileage number where requested.

I am a person or organization that received official notification of the project via U.S. mail from the siting permit applicant.

X I reside within 1 miles of the proposed project.

Residential address if different from your mailing address:

X I own land within 1 miles of the proposed project.

Legal description: Lake County Sec/Twp/Rng 4-105-51

I officially represent a municipal, city, township, county or other affected governmental agency within miles of the proposed project.

Explain your interest in applying for party status below.

We are impacted landowner in Brant Lake, Lake County South Dakota. The proposed pipeline is 1 mile from our home and RV Park. The RV Park has 50 spots, plus families. The population could be as high as 200 people. 2 miles from cattle and Mobile Home Park, with approximately another 50 people. We are concerned about the lack of transparency about this project and how Summit has treated our community. Summit is ignoring and disrespecting our counties who have exercised our rights to pass ordinances for the good of our community and welfare of the citizens by asking the PUC for preemption is outrageous. I believe Summit is a huge threat to our (the citizens) economic development and a huge threat to our health and safety. Just a land shift and cause the pipeline to rupture and this happens all the time along the Lake Shore with seasonal flooding that usually takes place in the spring. The proposed pipeline goes under wetlands between Round and Brant Lakes. I can't imagine you or anyone else would think this is an acceptable location for a hazardous pipeline. Big Sioux and Kingsbrook rural water has wells all over this area. Contamination of the drinking water could go unnoticed indefinitely. You must not approve this pipeline if you have any regard for the health and welfare of the citizens in South Dakota.

Deadline: This application must be filed with the Public Utilities Commission on or before 5:00 p.m. CT, Jan. 24, 2025. File this completed form electronically at puc.sd.gov/EFilingOptions.aspx
