SD PUC
Docket HP24-001

It is widely known carbon dioxide (CO2) & is of scientific fact, an essential part of the “CIRCLE of LIFE.” Also, when CO2 is infused into a greenhouse in excess of that occurring naturally, plant growth increases. So, when CO2 is available in increasing amounts, plants use it in increasing amounts.
The above is a representation of fact, not consensus.

Recently public hearings were held regarding Summit’s reapplication to permit a CO2 pipeline. A PUC handout read: “...minimal adverse effects on the environment and the citizens.” Why should there be any “adverse effects” anywhere on anybody? Obviously, the problem is: a facist, corrupt system beginning in Washington,DC polluting every layer of government down into & including SD counties with “FREE MONEY.”

The question becomes why the pipeline hasn’t been needed until now. After all, decades of government incentives, incited every layer of government to embrace what now has become an “adverse effect.”

So any CO2 pipeline was of no “need” eons before or decades after the government inspired ethanol plants. Yes, tax credits (cash) billions of dollars to the rich with no accountability all based on a false consensus, a scam, if you will. Without “FREE MONEY” for Summit this is just another unnecessary, unaffordable “Big Government” expenditure.

SD voters are aware of the corruption & the broken moral code of the system that you thrive in.

DENY the application.

Thank You.
