South Dakota agriculture.

Over the past couple of years, South Dakota's carbon pipeline projects have been met with opposition. This opposition has put these projects - and others similar - in jeopardy of shutting down or being relocated out of state.

More than half of our state's corn crop, grown for ethanol production, could lose its market for sale. This loss will devastate our ag economy, our rural communities and South Dakota's future economic development.

The choice is ours. I ask that you please support the carbon pipeline as we need this for all of South Dakota. Losing the carbon pipeline will damage our ag economy, cost our state billions, and hurt every South Dakotan. Let's not make a huge mistake. We need your support!

Sincerely,
Glacial Lakes Corn Processors Shareholder
