Subject: Summit CO2 Sequestration pipeline permit

I wish to encourage the PUC to deny this permit. You and Minn are holdouts. How wise you are! Obviously, North Dakota wants this for the fracking value. Our state of Iowa caved to buy-off pressure. That is blatantly obvious here. The one and only issue here is MONEY! Doesn't matter: landowner's rights, squandered water, safety, toxicity, how obsolete, can't get insurance, credits at taxpayer expense, damages done, grided tile demolished, water sheds and piped drinking water undercut, how low land sale and cash rents go, crop production cut--well, you get it. Summit DOES NOT GIVE A CARE!!! - as long as they get their (MY) money - hell be damned about anything or anybody else.

I implore you to think long and hard before you give a permit. One day you may just regret doing that. This is not a Republican or Democrat issue but rather this will affect the entire Midwest. If Mr Trump were to abolish these credits, would they put up their own money for this pipeline? They certainly have it BUT why should they spend it when the government will subsidize them?

THINK ABOUT THAT! DENY NOW! Jean Granger [REDACTED] Ft  
Dodge Iowa 50501 Remember, alot of people are counting on you to do the right thing here.
