Tuesday April 22 2025 docket HP24-001

Please use the means of this meeting to shut this pipeline down. Case in point: I was at a Summit presentation in Ft Dodge Iowa one week ago. They presented three (3) different distinct route map proposals. They have not one clue where they are going. AND we are 4 years in!!! I heard it with my own ears and saw it with my own eyes. I was told - subject to my confirmation - in one Iowa county Mr Rastetter bought an entire farm just to facilitate the route. If with this amount of time and dollars invested they don't have a plan--I hope you'll unanimously vote to stop this boondoggle on the midwest farmer/landowner. AND for a 25 year shelf life only! MANY prayers are going northward as you deliberate your decision. We hope you get it right! Jean Granger [REDACTED] Ft Dodge Iowa 50501 [REDACTED] jkg
