Subject: [EXT] HP24-001 In the matter of the application by SCS Carbon Transport for a permit to construct a carbon dioxide transmission pipeline

Commissioners Kristie Fiegen, Gary Hanson, and Chris Nelson,

Along with other South Dakotans, I vigorously oppose SCS Carbon Transport's application to bury pipelines which will carry toxic chemicals throughout South Dakota. If SCS Carbon Transport wishes to participate in the ethanol industry, it is incumbent upon them to develop a process which doesn't impose on, or create possible hazardous situations for the citizens of South Dakota. In addition, this situation was addressed in the November 2024 election, when the people of South Dakota overwhelmingly voted against carbon pipeline transport through our state.

Please reject this and all future applications to construct carbon dioxide pipelines throughout South Dakota.

Respectfully,

--

Kelly Bickett
