Subject: Thank you on denying Docket HP24-001.

Good morning.
To Gary Hanson, Kristie Fiegen, Chris Nelson,
and Staff of the S.D. Public Utilities Commission.

Thank you for your due diligence, upholding the
Rules of Law; S.D. Supreme Court decision, S.D.
Codified Law, S.D. Constitution, and U.S. Constitution.

Thank you all for the intestinal fortitude to see
this travesty through. I know there had to be
many times this was a burden, stressful, and
worry-some sleepless nights.

I know one of the most important things that occurred
was Landowners went "Ugly Early"; started talking
among themselves, sharing their experience's,
raising up, meeting at their House's, Town Halls,
probably Bars too, attending Township and County
Commissions meetings, organizing, and Grassroots
formed.

Summit Carbon Solutions caused all this up raising in
Landowner Rights and Legislative changes with their
harassment, intimidation, stress, threats, and law

suits. Now other States are rebelling. Anyone associated with SCS should be ashamed of themselves.

Thank you PUC for an open mind, doing what was responsible, and listening to the People of South Dakota. You may not realize it right now, but denying a permit to construct a Weapon of Mass Destruction (W.M.D.) waste CO2 pipeline has saved lives!

Thanks for taking the time to read my Thank You and me using my 1st Amendment Right.
